

JOTA02 Welding Turn Table Positioner

Typical Usage:

- Fabrication
- Metal Tank
- Construction
- Tower Welding
- Maintenance
- Education
- All Plate work
- Building
- etc.

JOTA02 Welding Turn Table Positioner

The Welding Turn Table Positioner are a type of automatic positioned. They work in MIG/MAG/CO2, TIG Welding source, making a set of special circumferential automatic welding system. This system is suitable for circumferential welding accessory of automation and auto bike, also suitable for the making of metal parts which need a mass of circumferential welding.

Main Capability Characteristics:

- The headstock can be turned 90°. The principal can be turned random direction to fit different angle.
- Drive by DC motor, good performance, large timing range, available for large range of workpiece.
- Equipped with foot pedal switch, operated conveniently.
- Operate by one key, you only need to press the welding key after debugging, it will be weld automatically.
- Having emergency stop function, it will stop urgently when special situation occurs in welding processing.
- Has welding speed display function to show current running speed.

SPECIFICATION

Description	JOTA02
Input Voltage	220V, Single Phase, 50Hz
Input Power	0.1KVA
Turn Table Dia.	300mm.
Rotate Speed	0.1-20rpm.
Horizontal Loading	50kg.
Vertical Loading	25kg.
Center Bore Dia.	30mm.
Weight	36kg.

All the technical data can be modified without advance notice.

Stay carefree for
Longer
2Years

- **Material defect or manufacturing error - We are here to help! (1 Years warrantee Free Of Charge)**
Machine out of operation and it is not your fault? Simply send it in to us! We will fix it for your free of charge and send it back before you even know it's gone.
- **Accidental damage - We 'll take care of it! (2 Years)**
Machine out of operation and this time it's time it's your fault? Treat yourself to a brand new one and benefit from our generous discounts - up to 27% discount for a comparable new device!
- **Theft - Don't worry , We have you covered ! (2 Years)**
Someone has taken as much of a liking to your machine as you? No surprise to us, but don't worry. Your replacement is waiting right here with us - with a carefree discount of up to 27%
